

Willow Tree School Aims and Mission Statement

'A mission statement is a statement that defines the essence or purpose of a school.'

'We are a new beginning for our community. Where learning, morals and values are our foundations. Together we will embrace tomorrow and use innovation to create a brighter future for all.'

- We work with our community, learning from the past and look forward to the future.
- We promote an ethos with home and the wider community in which all are valued and relationships are based on respect, honesty and trust to ensure our school is happy and secure.
- We deliver a meaningful, fun and challenging, child initiated, curriculum; which encourages and challenges all to be active, creative, independent and self-critical learners, unafraid of making mistakes.
- To ensure the highest levels of achievement we meet all the needs of all our pupils.
- We ensure children, staff, parents and governors work together to actively promote and develop our shared vision.
